EDUCATION

Lovely Professional University

2023 - 2027

B-Tech in Computer Science

AWARDS & CERTIFICATIONS

- AI Agents and Agentic AI with Python & Generative AI
- Master Generative AI & Generative AI tools
- Build Generative AI Apps and Solutions
- ChatGPT-4 Prompt Engineering: ChatGPT, Generative AI & LLM

SKILLS

- AI System Architecture & Local Inference
- LLM & Prompt Engineering (JSON Schema Enforcement)
- Python & API Integration
- Workflow Automation & ROI Analysis
- Rapid Prototyping
- Technical Communication

PROFILE

A Computer Science student specializing in Applied AI and automated workflow solutions. I focus on bridging the gap between unstructured enterprise data and structured programmatic systems using LLMs and Python. Proven ability to architect local, privacy-first AI pipelines that identify operational inefficiencies and deliver measurable business ROI.

PROJECTS

Enterprise Process Auditor

May 2026

[GITHUB LINK](#)

- Engineered a local AI agent using Python and Llama-3 to analyze unstructured corporate employee logs and identify workflow inefficiencies.
- Designed a strict prompt architecture (Temperature=0.1) to force reliable JSON outputs, bridging abstract text into a structured, crash-resistant data pipeline.
- Developed an automated ROI calculator that identified high-friction tasks and projected 1,140 hours of annual saved labor through targeted API and Python automations.

Narrative AI Script Engine (Notion)

May 2026

[GITHUB LINK](#)

- Developed a local AI pipeline using Llama 3.1 and Instructor to parse raw scripts into structured JSON schemas, ensuring 100% privacy for creative intellectual property. Clean UI design and local data persistence.
- Engineered a custom bridge to the Notion API that programmatically builds and populates relational databases, automatically linking characters to their specific locations with zero manual entry.
- Optimized for local inference on an RTX 4050, successfully migrating a 180-episode series bible into a fully searchable, interconnected digital workspace.

ACHIEVEMENTS

Founder | University Film Club

- Managed community engagement, organized structured screenings, and facilitated analytical discussions on narrative pacing and structural payoffs.

Screenwriter

- Developed detailed scripts and world-building pipelines (e.g., Peace Break). Wrote three full length screenplays.
